Velvety Belgian chocolate is our sweet specialty!

Welcome to the world where exquisite taste, aroma, and creamy texture meet masterful flavor expertise. All this is based on clean labels and the finest recipes. We use premium ingredients, including Belgian chocolates, to deliver quality, flavor, and design. Discover the variety of our exquisite chocolates and choose your favorite flavor!

CHOCOLATE VARIETIES:

Milk 33% Cocoa – A warm, brown color with a smooth cocoa texture and caramel notes in the background. This is the most popular chocolate among chefs worldwide. Its exceptional creaminess makes each milk piece melt in your mouth!

Dark 72% Cocoa – A dark dessert chocolate made from the finest Belgian cocoa. It features a very subtle, moderate sweetness characteristic of classic dark chocolate.

Dark 57% Cocoa – With a deep aroma and creamy texture, this chocolate has a rich cocoa flavor with delicate, fruity notes, thanks to the roasting of whole cocoa beans used in its production.

White 27% Cocoa Butter – Iconic white chocolate with a balanced flavor and noticeable milk notes. Created for fans of original tastes. Creamy, smooth texture with a milky flavor – subtle, classic sweetness.

Ruby 33% Ruby Cocoa – Surprising flavor and original ruby hue. Made from red cocoa beans from the Ivory Coast, Brazil, and Ecuador. Not only does it stand out in color, but it also has an intense, fruity flavor with a fresh, tangy note.

Milk with Honey 33% Cocoa – Milk chocolate with a touch of natural honey. A unique flavor combination with milky, caramel, and honey notes.

Caramel 30% Cocoa Butter – Chocolate with a rich toffee, butter, and cream flavor, enhanced by a touch of salt. Subtle, light amber color with a golden hue invites you to taste this masterful blend of fine ingredients.

Sugar-Free Milk 33% Cocoa – The perfect flavor composition, combining the rich taste of chocolate with the richness of cocoa and milk. The texture, color, and pleasure of classic chocolate, but without added sugar!

JAKOB HABERFELD COLLECTION

The Jakob Haberfeld Collection combines the richness of finest Belgian chocolate with the unique character of cherry liqueur crafted in the historic Jakob Haberfeld distillery, established in 1804.

JAKOB HABERFELD COLLECTION

Made from natural cherries with and without pits, macerated for months with aromatic herbs and spices, and refined through a fivefold distillation and quadruple filtration process, the liqueur reveals a deep, juicy sweetness balanced by a subtle note of cherry stone. Pure mountain spring water, transported directly from a protected source, completes this noble composition.

In creamy pralines and filled chocolate bars, fruity accents gently merge with a velvety core, creating a sophisticated harmony of sweetness and delicate tartness. These creations embody artisanal craftsmanship and invite slow, mindful indulgence.

COMPOSTABLE FOILS – product safety and care for the planet

Foil is an indispensable element of food packaging – but it can also be environmentally friendly. That's why we introduced **100% compostable foils**, which meet strict food safety standards and follow the principles of sustainable development.

Why is it the right choice?

- **Ecology in practice** – made from over 90% renewable resources (including FSC®-certified wood fibers),
- **Compostable** – suitable for both industrial and home composting,
- **Safe for the product** – provides an effective barrier against gases and moisture, keeping sweets fresh and secure,
- **A modern alternative to plastic** – reduces the use of traditional foil by up to 60–70%,
- **Supports your brand image** – shows that your company truly cares for the environment.

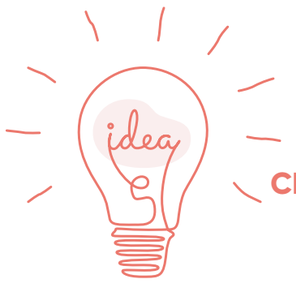

Naturally fresh

Products in compostable foil have a shorter shelf life (e.g. candies 12 months vs. 24 months in traditional foil).

This means they are **not artificially preserved with additional chemicals or plastic barriers** – keeping their natural character and further emphasizing your brand's sustainable choice.

By choosing compostable foils, you gain guaranteed product safety and a real contribution to protecting the planet.

BLEND & TELL YOUR AROMA STORY

If blends aren't quite your taste, **take the initiative and create your own tea**.

Premium brands are recognized by their details. These details create **an aura of uniqueness**—sometimes subtle, sometimes bold, but always consistent. Tea can be one of those details. Not a ready-made blend from a catalog, but a **blend designed from scratch** – exclusively for your brand.

The process in our configurator is simple, yet the effect is strategic:
choose your base and three extras from fruits, petals, spices, and other ingredients.

CHOOSE THE BASE

black or green tea

black leaf tea — green leaf tea

ADD FRUIT

a note that brings freshness and natural sweetness

cherry — lemon peel — plum

apple — orange peel — cranberry

REACH FOR PETALS

an element that enhances aroma and adds color

hibiscus — rose — cornflower

ADD AN ACCENT

spices that give character

ginger — cinnamon — cardamom

DEFINE THE FINISH

extras that turn the taste into a signature

gold stars — white snowflakes

YOUR FINAL TEA BLEND!

This is how a product that acts as **sensory branding** is created:
it sticks in the memory, builds loyalty, and sets you apart from the competition.
Because clients may forget an advertising slogan. But a taste that becomes your signature will stick in their memory.
